

## ENVIRONMENTAL POLICY STATEMENT

**Chun Wo** undertakes wide range of business in the construction industry. Chun Wo's environmental objectives are to prevent environmental pollution, reduce waste and enhance waste recycling from our operations through implementation of Environmental Management System that conforms to the International Standard ISO 14001 requirements.

**Chun Wo** is committed to:

- Provision of adequate and appropriate resources to implement this Policy;
- Compliance with environmental laws and other relevant requirements;
- Setting environmental objectives and targets that lead to continuous environmental improvement;
- Promoting environmental awareness of staff at all levels through the provision of appropriate advocacy, education and training;
- Communication of this Policy to all staff and interested parties; and
- Initiation and Implementation of actions to prevent environmental pollution and to improve environmental performance continuously.

All staff, subcontractors and suppliers are required to implement this Policy diligently. This Policy will be reviewed regularly in light of experience, feedback from staff, business development, current regulations and legislation.
